USER INTERFACE DESIGN

EXPERIMENT: Ticket Booking System using HTML, CSS and JavaScript

NAME: Harsan.J REG NO: 240701179

AIM:

To design and develop a Ticket Booking System that validates user inputs and displays appropriate messages using HTML, CSS, and JavaScript.

PROCEDURE:

Step 1: Creating the HTML Form

An HTML form was created to collect booking details with the following fields:

1. Full Name
2. Email Address
3. Phone Number
4. Ticket Type (Standard / VIP)
5. Number of Tickets
6. Submit Button

 elements were used to display validation error messages for each input field..

Step 2: Styling using CSS

CSS was applied to enhance the user interface:

- Center-aligned booking form
- Dark/modern background design
- Padding and rounded borders
- Styled input fields and dropdown
- Interactive submit button with hover effects
- Error messages displayed in red

- Success message displayed in green

Step 3: JavaScript Validation

JavaScript was used to validate inputs when the user clicks the Submit button.

Validation includes:

- Name → should not be empty
- Email → must contain @ and valid format
- Phone Number → must contain exactly 10 digits
- Ticket selection → must be selected
- Number of tickets → must be greater than 0

Step 4: Displaying Messages

- If any input is invalid:
    - संबंधित error message is displayed below the field
- If all inputs are valid:
    - Displays success message: **"Booking Confirmed!"**

CODE:

HTML (ticket.html):

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <title>Event Registration</title>

  <link rel="stylesheet" href="styles.css">

</head>

<body>

<div class="container">
```

```
<form id="registrationForm" class="form-card">
  <h2>✏ Event Registration</h2>

  <div class="input-group">
    <input type="text" id="name" required>
    <label>Full Name</label>
    <small class="error" id="nameError"></small>
  </div>

  <div class="input-group">
    <input type="text" id="email" required>
    <label>Email Address</label>
    <small class="error" id="emailError"></small>
  </div>

  <div class="input-group">
    <input type="text" id="phone" required>
    <label>Phone Number</label>
    <small class="error" id="phoneError"></small>
  </div>

  <div class="input-group">
    <select id="ticket" required>
      <option value=""></option>
      <option value="standard">Standard</option>
      <option value="vip">VIP</option>
    </select>
    <label>Ticket Type</label>
```

```
    <small class="error" id="ticketError"></small>
   </div>

   <button type="submit">Register Now</button>

   <p id="successMessage"></p>
  </form>
</div>

<script src="script.js"></script>
</body>
</html>
```

CSS (style.css):

```
/* Background */
body {
  margin: 0;
  font-family: 'Segoe UI', sans-serif;
  height: 100vh;
  background: linear-gradient(135deg, #667eea, #764ba2);
  display: flex;
  justify-content: center;
  align-items: center;
}

/* Glass Card */
.form-card {
  background: rgba(255, 255, 255, 0.1);
```

```
  backdrop-filter: blur(15px);
  padding: 30px;
  width: 350px;
  border-radius: 15px;
  color: white;
  box-shadow: 0 8px 32px rgba(0,0,0,0.2);
}

/* Title */
h2 {
  text-align: center;
  margin-bottom: 25px;
}

/* Input Group */
.input-group {
  position: relative;
  margin-bottom: 25px;
}

.input-group input,
.input-group select {
  width: 100%;
  padding: 10px;
  border: none;
  outline: none;
  background: transparent;
  border-bottom: 2px solid rgba(255,255,255,0.5);
```

```
  color: white;
  font-size: 14px;
}

/* Labels (floating effect) */
.input-group label {
  position: absolute;
  top: 10px;
  left: 0;
  font-size: 14px;
  color: rgba(255,255,255,0.7);
  pointer-events: none;
  transition: 0.3s;
}

.input-group input:focus + label,
.input-group input:valid + label,
.input-group select:focus + label,
.input-group select:valid + label {
  top: -12px;
  font-size: 12px;
  color: #fff;
}

/* Button */
button {
  width: 100%;
  padding: 12px;
```

```
  border: none;
  background: #ff7a18;
  color: white;
  font-size: 16px;
  border-radius: 8px;
  cursor: pointer;
  transition: 0.3s;
}

button:hover {
  background: #ff5722;
  transform: scale(1.03);
}

/* Error */
.error {
  color: #ffb3b3;
  font-size: 12px;
}

/* Success */
#successMessage {
  text-align: center;
  margin-top: 10px;
  color: #00ffcc;
}
```

JavaScript (script.js):

```
const form = document.getElementById("registrationForm");

form.addEventListener("submit", function (e) {
  e.preventDefault();

  const name = document.getElementById("name").value.trim();
  const email = document.getElementById("email").value.trim();
  const phone = document.getElementById("phone").value.trim();
  const ticket = document.getElementById("ticket").value;

  const nameError = document.getElementById("nameError");
  const emailError = document.getElementById("emailError");
  const phoneError = document.getElementById("phoneError");
  const ticketError = document.getElementById("ticketError");
  const successMessage = document.getElementById("successMessage");

  nameError.textContent = "";
  emailError.textContent = "";
  phoneError.textContent = "";
  ticketError.textContent = "";
  successMessage.textContent = "";

  let isValid = true;

  if (name === "") {
    nameError.textContent = "Name is required";
    isValid = false;
  }
```

```
  const emailPattern = /^[^ ]+@[^ ]+\.[a-z]{2,3}$/;
  if (!email.match(emailPattern)) {
    emailError.textContent = "Invalid email format";
    isValid = false;
  }

  const phonePattern = /^[0-9]{10}$/;
  if (!phone.match(phonePattern)) {
    phoneError.textContent = "Enter 10-digit phone number";
    isValid = false;
  }

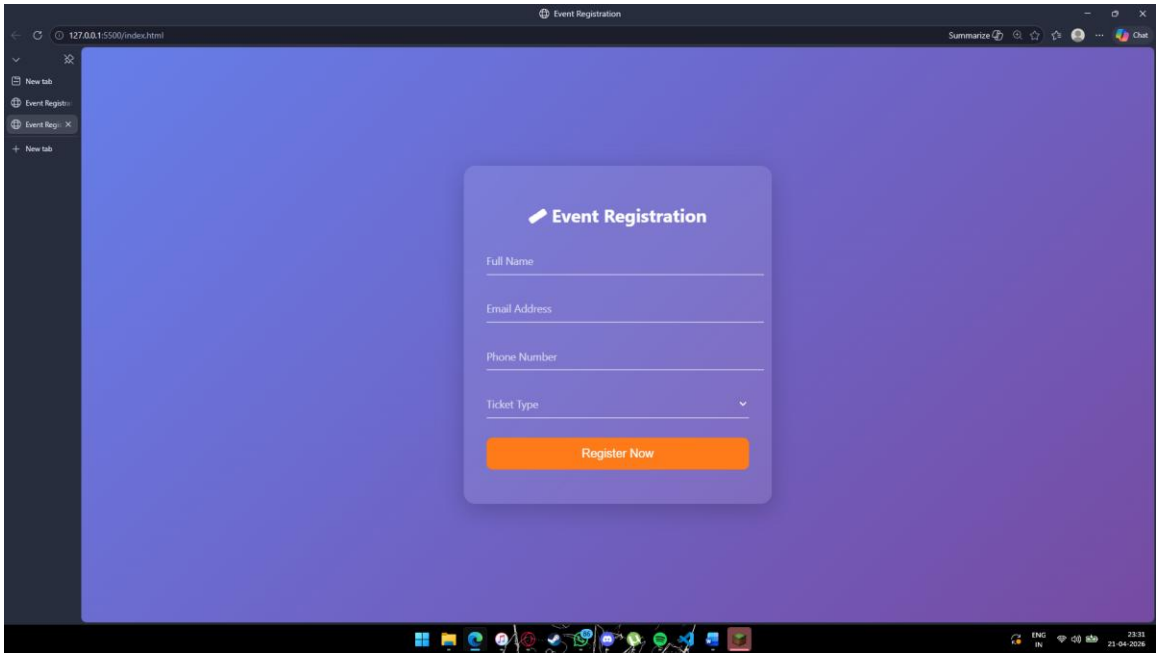
  if (ticket === "") {
    ticketError.textContent = "Select a ticket type";
    isValid = false;
  }

  if (isValid) {
    successMessage.textContent = " 🎉 Registration Successful!";
    form.reset();
  }
});
```

OUTPUT:

The system displays:

- Error messages for invalid inputs
- Success message when booking is valid



PROTOTYPE LINK:

file:///Users/yourname/Desktop/ticket-booking/ticket.html

RESULT:

The Ticket Booking System was successfully implemented with validation.
