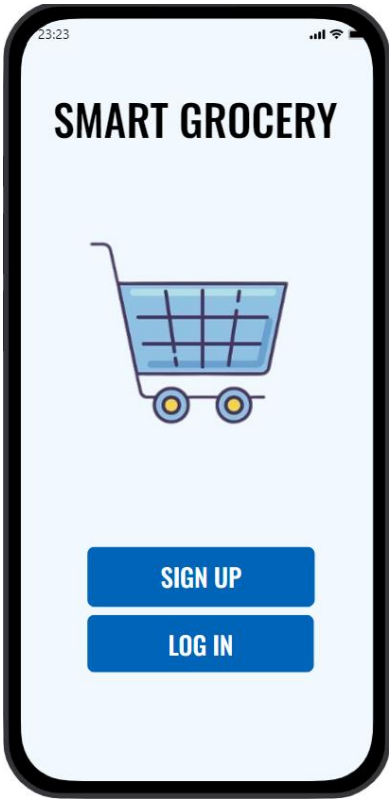
EXPERIMENT 4

ROLL NO: 240701179 NAME: J.Harsan

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

Screen 1:

Sign In page for the destination app



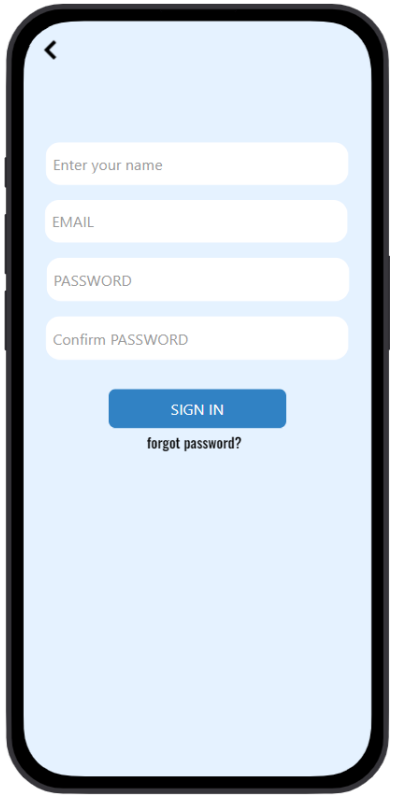
Login Page:
Familiar elements:
1.App Logo & Title – Top Center:
. Displays the app name (e.g., Smart Grocery) for brand identity.
. Helps users confirm they are in the correct application.

2.Username / Email Field – Below Title:
. standard input field where users enter their registered email or username.
.Often includes a user/email icon inside the text box.

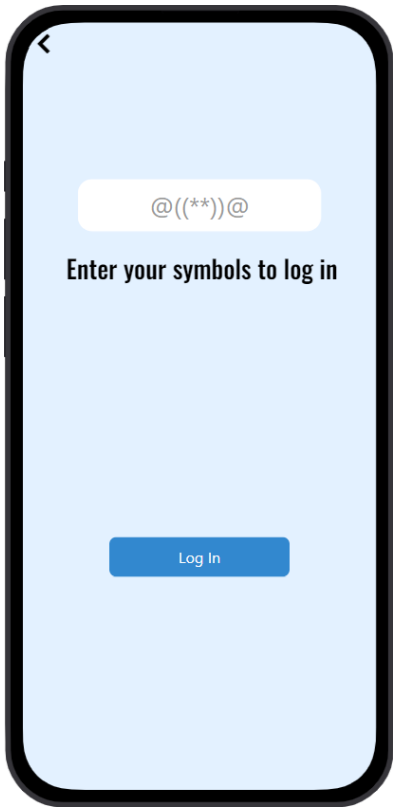
3.Password Field – Below Username:
. Secure input field where characters are hidden (••••••).
. May include a “show/hide password” (👁) icon.

4.Login Button – Centered Below Fields:
. Primary action button to access the account. .
Clearly highlighted to attract user attention.

Screen 2:



Familiar elements.



unFamiliar elements:

1.symbols Inside Input Fields:

.Using random symbols (etc.) instead of standard icons (email , password) is unusual.

. Users may not understand what each field represents (username or password).

2.symbols in Field:

. These icons do not clearly indicate a login function.

. They may confuse users about what information to enter.

3.enter your symbols ??” Text:

. This message is unclear and grammatically confusing.

. Typically, it should say “Forgot Password?” .

4.Lack of Clear Field Labels:

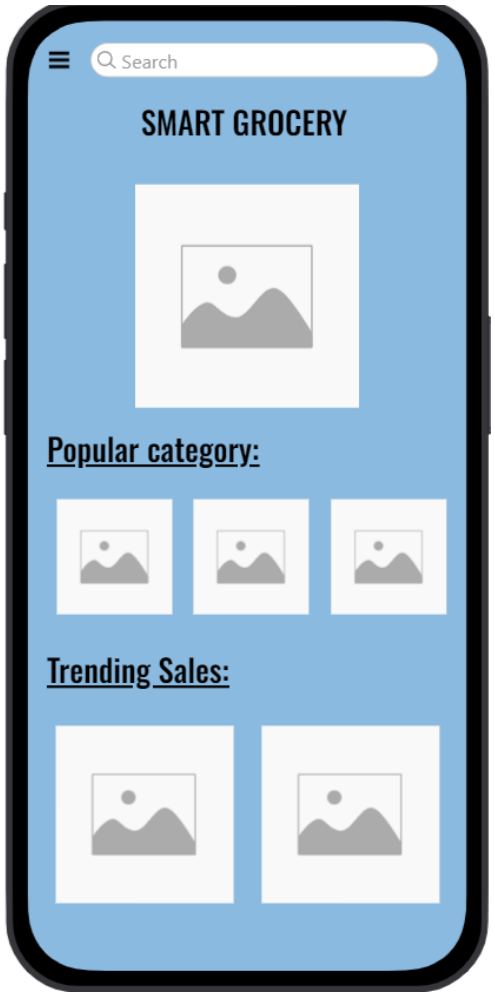
. No visible “Email” or “Password” labels.

. Users rely only on emojis, which is not standard UI practice.

5.Dark Background with Low Contrast Text:

.Some text is difficult to read.

. Reduces accessibility and usability.



Screen3:

Familiar Icons / Elements:

1.Hamburger Menu (☰) – Top Left:

. Common icon used to open the navigation menu.

. Usually contains options like Home, Categories, Orders, and Settings.

2.Search Bar ( ) – Top:

. Standard search field with magnifying glass icon.

. Allows users to search for products quickly.

3.App Title – “Smart Grocery”:

.Displays the brand name clearly.

. Helps users confirm they are on the home screen.

4.Promotional Banner:

. Common e-commerce feature showing offers or discounts.

. Visually attractive section to highlight deals.

5.Category Icons:

. Grid layout commonly used in shopping apps.

Easy navigation to different product sections.

6.Trending Deals Section:

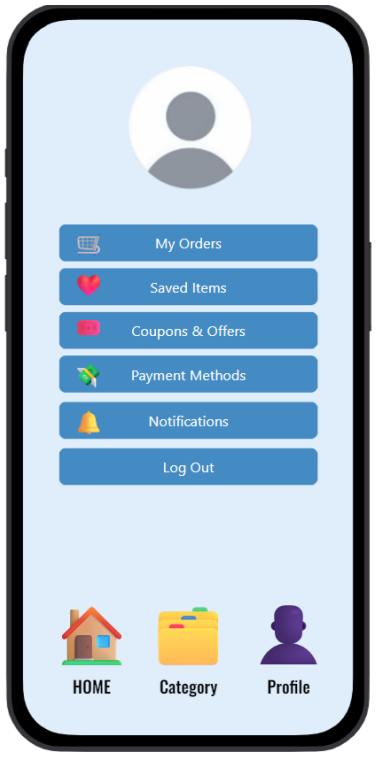
. Standard section highlighting popular or discounted items.

. Helps users discover featured products.

8.Add to Cart Button:

. Common e-commerce action button.

. Allows users to quickly add items to their shopping cart.



Screen4:

Familiar Icons / Elements:

1.Profile Picture – Top Center:

○ Circular avatar image representing the user.

○ Common design pattern in account/profile pages.

2.User Name & Email Display – Below Profile Image: ○ Shows logged-in user information.

○ Standard feature for personalization and identification.

3.My Orders (Icon):

○ Common option in shopping apps to view order history.

○ Cart icon represents purchases.

4.Saved Items (Icon):

○ Heart icon commonly represents favorites or wishlist.

○ Allows users to view saved products.

5.Coupons & Offers (/ Tag Icon):

○ Standard section for discounts and promo codes.

○ Frequently used in e-commerce apps.

6.Payment Methods (Icon):

○ Card icon represents stored payment options.

○ Used to manage debit/credit cards or other payment types.

7.Notifications (Icon):

○ Bell icon universally represents alerts and updates.

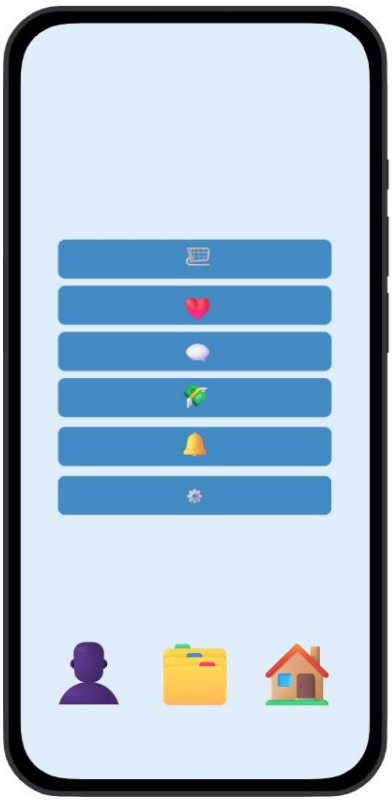
8.Log Out (Power Icon):

○ Power symbol commonly used to indicate logout action.

9.Bottom Navigation Bar (Home, Categories, Account): ○ Home ( ) – Returns to main page.

○ Categories ( ) – Browse product sections.

○ Account ( ) – Access profile settings.
○ Standard bottom navigation pattern in mobile apps.



Unfamiliar Elements:

1.Search Bar with Clock Icon (⏱) – Top:
○ A clock icon inside a search bar is unusual.
○ Users typically expect a magnifying glass ( ) for search.
○ The meaning (recent search? timer?) is unclear.

2.Truck Icon ( ) Without Label:
○ Could represent delivery or orders, but no text is provided.
○ Users must guess its function.

3.Barcode Icon Without Text:
○ Might mean scan product or product code.
○ Without label, it is confusing.

4.Clipboard Icon Without Label:
○ Could represent orders, list, or reports.
○ No text makes its purpose unclear.

5.Triangle Icon (△) – Middle Section:
○ Not a common navigation symbol in shopping apps.
○ Meaning is ambiguous.

6.Light Bulb Icon ( ) Without Explanation ○
Could represent tips or suggestions.
○ Not clearly defined in this context.

7.Chat Bubble Icon ( ) Without Label: ○
Might indicate support or messages.
○ Users may not immediately understand.

8.Settings Gear Icon (⚙) – No Text:
○ Common icon, but still lacks a label for clarity.

9.Bottom Navigation Icons Without Text:
○ Home ( ), Categories ( ), Profile ( ) appear without labels.
○ Icons alone may confuse some users.

10.Low Visibility / Dark Contrast:
○ Icons and lines are faint and hard to see. ○
Reduces usability and accessibility.
